

The Company

ORION Information Technologies was founded in 2000 as a spin-off company of ORION International Technologies, Inc. We focus on developing and deploying customized software solutions for commercial and government customers.

**DELIVERING THE
NEW GENERATION OF
WEB-BASED AND
CLIENT/SERVER
CUSTOM
APPLICATIONS**

Professional Services

The professional services practice provides a wide range of software development services including system integration and information technology consulting. Through partnerships with "best-in-class" software technology companies, ORION has the expertise to design, develop and deploy solutions based on the new e-business model.
